Eligibility criteria

Inclusion criteria

1. Patient with ankylosing spondylitis;
2. Patient 18 years or older;
3. Patient who have had physiotherapy;
4. Patient willing to give informed consent.

Exclusion criteria

Patients with a recent exacerbation of ankylosing spondylitis.

Study design

Design

Study type:	Observational non invasive
Intervention model:	Parallel

Allocation:	Non-randomized controlled trial
Masking:	Open (masking not used)
Control:	Active

Recruitment

NL	
Recruitment status:	Recruitment stopped
Start date (anticipated):	01-08-2012
Enrollment:	75
Type:	Actual

Ethics review

Positive opinion	
Date:	24-07-2012
Application type:	First submission

Study registrations

Followed up by the following (possibly more current) registration

No registrations found.

Other (possibly less up-to-date) registrations in this register
