Study description

Background summary

It's a qualitative study which includes semi structured interviews with chosen members ("convenient sampling") who perform various roles within the citizen's initiative in Roermond, Netherlands.

Study objective

What are the experiences of members of a citizen's initiative which focuses on a dementia friendly community? And which promoting and inhibiting factors can be found?

To become answering outcomes for the research question there will be semi structured interviews with stakeholders from one initiative in Roermond, Netherlands.

Study design

Interviews are planned between January and February 2018

Intervention

Semi structured interviews
