## Samenvatting

### ID

NL-OMON23050

### Bron

Nationaal Trial Register

### Verkorte titel

RS

### Aandoening

Cardiovascular, endocrine, hepatic, neurological, ophthalmic, psychiatric, dermatological, otolaryngological, locomotor, and respiratory diseases

## Ondersteuning

**Primaire sponsor:** Erasmus University Medical Center, Rotterdam, The Netherlands

**Overige ondersteuning:** The Rotterdam Study is supported by the Erasmus MC University Medical Center and Erasmus University Rotterdam; The Netherlands Organisation for Scientific Research (NWO); The Netherlands Organisation for Health Research and Development (ZonMw); the Research Institute for Diseases in the Elderly (RIDE); The Netherlands Genomics Initiative (NGI); the Ministry of Education, Culture and Science; the Ministry of Health, Welfare and Sports; the European Commission (DG XII); and the Municipality of Rotterdam.

## Onderzoeksproduct en/of interventie

## **Uitkomstmaten**

### **Primaire uitkomstmaten**

Clinical and subclinical outcomes in the cardiovascular, endocrine, hepatic, neurological, ophthalmic, psychiatric, dermatological, otolaryngological, locomotor, and respiratory research domain

## **Toelichting onderzoek**

### **Achtergrond van het onderzoek**

The Rotterdam Study is a prospective cohort study ongoing since 1990 in the city of Rotterdam in The Netherlands. The study targets cardiovascular, endocrine, hepatic, neurological, ophthalmic, psychiatric, dermatological, otolaryngological, locomotor, and respiratory diseases. As of 2008, 14,926 subjects aged 45 years or over comprise the Rotterdam Study cohort. Since 2016, the cohort is being expanded by persons aged 40 years and over.

### **Doele van het onderzoek**

The Rotterdam Study studies causes of diseases in the elderly, as a response to demographic changes leading to an increase of the proportion of elderly people in most populations.

### **Onderzoeksopzet**

Baseline visit at the reasearch centre, consecutive follow-up visits at the research centre every four years

### **Onderzoeksproduct en/of interventie**

None, observational cohort study

## **Deelname eisen**

### **Belangrijkste voorwaarden om deel te mogen nemen (Inclusiecriteria)**

Members of the public, aged 40 years and over, living in the Ommoord district in the city of Rotterdam, The Netherlands

### **Belangrijkste redenen om niet deel te kunnen nemen (Exclusiecriteria)**

None

## **Onderzoeksopzet**

### **Opzet**

Type: Observationeel onderzoek, zonder invasieve metingen  
Onderzoeksmodel: Anders

**Controle:** N.v.t. / onbekend

## Deelname

Nederland  
Status: Werving gestart  
(Verwachte) startdatum: 01-07-1989  
Aantal proefpersonen: 19000  
Type: Verwachte startdatum

## Ethische beoordeling

Positief advies  
Datum: 13-11-2017  
Soort: Eerste indiening
